

FORTICASI

Composition:	W/V
CALCIUM (CaO).....	10%
SILICIUM (Si).....	24%

Product description:

Forticasi is solution of calcium and silicium indicated as a fortifier of plant tissues for foliar and root application, aimed at increasing crop tolerance to pathogen attack, improve the shelf life of fruit and increase plant resistance and fruit to physical damage caused by rubbing, handling, etc..

Forticasi benefits:

- Enhance concentrations of Ca and Si in the crop, avoiding deficiencies.
- Improve the plant and fruit resistance to physical damage.
- Improve crop tolerance attack of external pathogens.
- Enhance crop yield.

Forticasi application:

Apply preferably from the initial stages of crop development, or when environmental conditions favor the development of disease or during early fruiting to improve shelf life. In which case, **it is suggested to perform treatments 2-3 applications at an interval of 7-10 days.**

Dose per application:

CROP	DOSE
SOIL APPLICATIONS	
Garlic, Onion	5 – 10 (L/Ha)
Berries (blueberry, raspberry, strawberry, blackberry)	7 – 15 (L/Ha)
Cruciferous vegetables (broccoli, cabbage, cauliflower)	5 – 10 (L/Ha)
Cucurbitaceae (pumpkin, melon, cucumber, watermelon, etc..)	5 – 10 (L/Ha)
Fruit trees	5 – 10 (L/Ha)
Lettuce	5 – 10 (L/Ha)
Ornamental plants	7 – 15 (L/Ha)
Papaya tree	5 – 10 (L/Ha)
Pastures	10 – 40 (L/Ha)
Solanaceae (eggplant, pepper, potato, tomato)	5 – 10 (L/Ha)
Carrot	5 – 10 (L/Ha)
FOLIAR APPLICATIONS	
Garlic, Onion	1 – 4 (L/Ha)
Banana tree	0.5 – 1 (L/Ha)
Berries (blueberry, raspberry, strawberry, blackberry)	1 – 4 (L/Ha)
Cruciferous vegetables (broccoli, cabbage, cauliflower)	1 – 3 (L/Ha)
Cucurbitaceae (pumpkin, melon, cucumber, watermelon, etc..)	1 – 4 (L/Ha)
Gramineae (oats, sugar cane, barley, corn, sorghum, wheat)	2 – 4 (L/Ha)
Lettuce	1 – 4 (L/Ha)
Legumes (alfalfa, beans, chickpeas, soybeans, etc..)	1 – 4 (L/Ha)
Ornamental plants	2 – 6 (L/Ha)
Papaya tree	1 – 6 (L/Ha)
Solanaceae (eggplant, pepper, potato, tomato)	1 – 4 (L/Ha)
Carrot	1 – 3 (L/Ha)
